INTERVIEW PRACTICE WORKSHEET: COMMON QUESTIONS

Apprentis

WHY THIS WORKSHEET?

Interviews can be nerve wracking, especially if it's your first one or you're unsure what to expect. It's normal to feel nervous, but the best way to build confidence is through preparation and practice.

This worksheet is here to guide you through the most common apprenticeship interview questions, step by step. It's not about having perfect answers, it's about getting comfortable telling your story, highlighting your strengths, and showing employers why you're a great fit.

You'll find space to write your own answers, practice using the STAR method (Situation, Task, Action, Result), and even come up with questions to ask the employer. Try saying your answers out loud, recording yourself, or roleplaying with a friend, teacher, or mentor. The more you practise, the more natural and confident you'll feel when it's the real thing.

Remember: you don't need years of experience you just need to show curiosity, effort, and a willingness to learn. This worksheet will help you do exactly that.

TIP: USE THE STAR METHOD FOR QUESTIONS THAT ASK ABOUT EXPERIENCE

Situation – What was happening?
Task – What was your responsibility?
Action – What did you do?
Result – What was the outcome?
